

# The Polaris Cloud Label Compliance Quick Action Guide

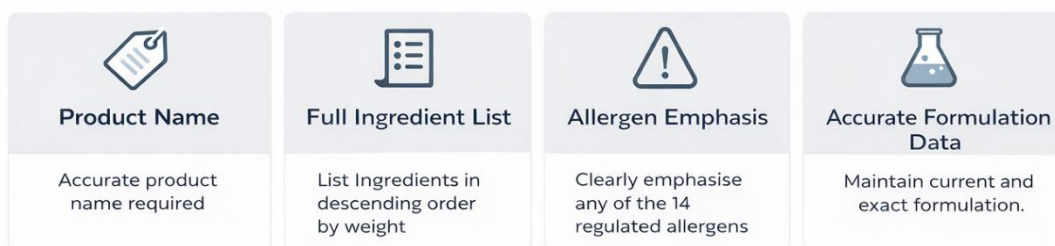

# Advice regarding your Label Compliance regarding: Natasha's Law

## Every Compliant Label Must Include:

- ✓ Product name
- ✓ Full ingredient list (correct weight order)
- ✓ Clearly emphasised allergens
- ✓ Accurate formulation
- ✓ Correct business details
- ✓ Date coding (where required)

## Does Natasha's Law Apply to Your Product?

## Quick Label Risk Check

- Have you reviewed labels after every supplier change?
- Are allergens rechecked after each reformulation?
- Are ingredient lists generated from a controlled source?
- Are outdated label files removed from circulation?
- Could you evidence your label control process during inspection?

If you cannot confidently answer yes to all five, your compliance risk increases.
